PROFESSIONAL SUMMARY

Motivated Computer Science student specializing in AI with strong skills in Python, Java, SQL, and OOP, focused on backend development and scalable application design. Eager to apply technical and problem-solving abilities to contribute to innovative software development and organizational growth.

EXPERIENCE

Green Skills Using AI - Edunet Foundation(Shell) | Virtual Internship JUN 2025-JUL 2025

- Built a machine learning model to forecast water pollutant levels using real datasets.
- Developed and deployed a Streamlit web app for real-time environmental parameter prediction.
- Performed data preprocessing and presented project outcomes to industry experts.

PROJECTS

Smart Expense Tracker- Python

[Project link](#)

Developed a Python-based expense tracker integrated with MySQL for secure data handling. Added features to record monthly expenses, calculate savings, and categorize spending. Enabled yearly expense analysis with trip suggestions based on accumulated savings.

PayZen - HTML, CSS, JS

[Project link](#)

Developed a web-based tool using HTML, CSS, and JavaScript to calculate minimum currency notes for return. Implemented real-time validation and dynamic table updates for smooth user interaction. Designed a simple, responsive layout to ensure ease of use across devices.

EDUCATION

G.Pullaiah College of Engineering and Technology - B.Tech

2022-2026

Computer Science and Engineering- (Artificial Intelligence) CGPA: **8.8**

Narayana Junior College

2020-2022

Intermediate in MPC Percentage: 93.6

Bhashyam High School

2019-2020

Percentage: 100

SKILLS

Programming: Java, C, Python, Data Structures and Algorithms.

Web Development: HTML, CSS, JS.

Database: SQL.

CERTIFICATIONS

- Python Full Course Online - **GFG**
- Java Programming - **CODETANTRA**
- Fundamentals in Deep Learning - **nvidia**
- SQL for Developers - **AWS**

ACHIEVEMENTS

- Solved 130+ problems on LeetCode, with specialization in Java.
- Completed successfully Skill Certification Test in Java- Hacker Rank.
